“Frontier Airlines inaugural flight from Billings to Denver will fill a void that has been needed at the Billings Logan International Airport,” said Kevin Ploehn, Director of Aviation and Transit at City of Billings Logan International Airport. “A true ultra-low-cost carrier like Frontier will help to again simulate additional travel between these two cities and ultimately enhance the economic growth to our community. We are very pleased to see Frontier in Billings, the largest City in Montana.”

“We are very excited to see Frontier begin service between Billings and Denver,” said William A. Cole, Mayor of Billings. “Both of these cities offer a lot to visit and explore. Denver has a lot of the bigger city venues that will attract the Billings traveler and Billings is the Trailhead to all of Montana and its unspoiled countryside. A win-win for everyone.”

“Denver is one of the top destinations for the Billings traveler,” said John Brewer, President and CEO of Billings Chamber of Commerce. “We are pleased that Frontier sees the value in our market and is returning after a few years absence. This flight will provide a low-cost option with additional travel times for leisure and business travel—our primary travel segment.”

Frontier is focused on more than low fares. The carrier offers customers the ability to customize travel to their needs and budget. For example, customers can purchase options a la carte or in one low-priced bundle called the WORKS. This bundle includes refundability, a carry-on bag, a checked bag, the best available seat, waived change fees, and priority boarding.

The airline's frequent flier program, *FRONTIER Miles* lets members enjoy many benefits as well as to attain Elite status. Like the airline, *FRONTIER Miles* is family friendly, and the program makes it easy for families to enjoy the rewards together, including family pooling of miles. *FRONTIER Miles* is aptly named because you earn one mile for every mile flown - no funny formulas at Frontier. If a customer travels a little or a lot, they will find *FRONTIER Miles* rewarding.

Frontier flies the youngest fleet in the industry, comprised of more than 85 Airbus A320 Family aircraft. With nearly 200 new Airbus planes on order, Frontier will continue to grow to deliver on the mission of providing affordable travel across America. Frontier's young fleet also ensures that the company keeps fares low and that customers will enjoy a pleasant and reliable experience flying with the airline.
